MEMORANDUM FOR: Director of Central Intelligence

FROM: Chief, Interdepartmental Affairs Staff, OPP

SUBJECT: More on Tomorrow's NSPG Meeting (S)

1. Admiral Nance called (you were tied up) to say that tomorrow's meeting is to last 30 minutes and it's "your show." He is expecting that you will brief the NSPG on the Finding and respond to the issues raised at the 16 November NSC meeting. Per his notes, those issues were:

- Justice needed time to study the legality of the various aspects of the Finding
- Members requested a fuller appreciation of the scope of the operation
- Members wanted a better understanding of what overt actions would be required of U.S. personnel. (S)

2. He wanted to make sure that you are in agreement. I told him that I knew you were planning to brief, but would inform you of his call and have you call him back if you had any questions. (U)

3. Have you asked anyone to develop responses to these issues? I have seen none. (U)
